Marking, Assessment and Feedback

Over the course of an academic year students will complete a number of formal assessments, these will be used to assess where students are in their learning journey.

Information from these assessments could be used when making decisions regarding setting of students, reporting progress home and predicting outcome. During lessons, evaluate students' learning through a range of activities including quizzes, class discussions, detailed questioning and other strategies. Through this, students will know where they are in their learning journey and what they need to do next to make further progress.

Teachers will continue to provide planned written feedback on selected pieces of work as per Business Dept. policy.

Homework

Homework will be set using the online platform GO 4 Schools.

Homework tasks are designed to prepare students for future learning in particular developing current affairs knowledge or consolidate work completed in the classroom. It will be clear what should be handed in, when it should be handed in and how it should be handed in. **This includes specific revision set.**
